CLOVENA NURSERIES

"HOME OF THE PANSY"

WHOLESALE PRICE LIST

OF

Seasonable Seeds and Plants

SUMMER AND AUTUMN, 1900

IN this list will be found the most complete assortment of Pansy Seed and Plants ever offered. Also a list of other Seasonable Seeds for Florists, and an abridged list of Vegetable Seed. With our Warehouse located at our Nurseries, we are enabled to promptly handle all orders for Seeds and Plants.

REMITTANCES. Under the rule of all New York City Banks, we are required to pay 10 cents for collection on all out of town checks, and therefore ask our customers when remitting small amounts less than \$5.00 to please send us either Postal or Express Money Orders or N. Y. drafts.

GOVERNMENT CONTRACTS. We have again been awarded the Government Contract for 1900 and 1901 for the putting up and mailing the Seed distribution for the Department of Agriculture. We are the first to secure this entire contract the second time, and to receive the most favorable mention ever given by the Department. The following is taken from the annual reports of the Department of Agriculture for 1899:

Extract from the report of the Secretary of Agriculture, the Hon. James Wilson, under the heading "Seed Distribution," page LV.:

"The contractor was required to provide a building within the City of Washington in which to pack the seeds, and samples were tested by the Division of Botany for purity and germination. The high quality of the seed now being sent out by the Department is scarcely equaled by any of the distributing agencies of the United States. Of 979 letters received regarding the seed distributed, 972 report favorably upon the quality."

The following extract is taken from the report of Assistant Secretary of Agriculture, Col. J. H. Brigham, page 3:

"According to the contract made with the New York Market Gardeners' Association, to whom the contract was awarded, the seeds purchased for general distribution through members of Congress, were put up and sent out from the City of Washington, instead of from the city in which the business of the contractor was located, as was the case last year. This was found to be a much better arrangement, and resulted in a more satisfactory distribution of the seeds."

Extracts from the special report of the Chief of the Seed Division, Capt. R. J. Whittleton, pages 4 and 5:

"The cost to the Department of the 14,238,168 packets of seeds distributed was \$70,978.36, as per contract awarded."

"Referring again to that part of the distribution which had been contracted for with the New York Market Gardeners' Association, I have to say that the work was begun about January 1, 1899, or soon thereafter, and ended on or about May 9."

"Mr. A. C. Nellis, acting in the capacity of manager for the contracting association, being himself a member of the firm, had charge of the distribution in so far as the said firm was obligated by contract."

"I deem it due to this gentleman to express here my appreciation of his indefatigable efforts and honorable dealing with the Department in all that pertained to the said distribution. In fact, to Mr. Nellis' ability, coupled with the good judgment and business qualifications of Mr. James Morison who represented this Division in the capacity of special agent, is mainly due whatever was creditable to the Department in the last seed distribution."

"As regards the quality of the seeds sent out in the last distribution, I am pleased to be able to state that many reports have already (Aug. 28/99) come to the Seed Division, of which nearly all are highly favorable."

THE BEST PANSIES FOR FLORISTS.

OUR BLENDS. Our seeds are grown and saved in separate colors and strains, and blended after harvest by set formulas, thus securing uniform mixtures that can be depended upon. This season we have improved each blend by adding new colors and markings, without advancing the old popular prices.

HALF TONE FROM PHOTO (REDUCED) OF
2632. New York Giant Market Blend.

2709. New Buttercup Blend.—This is an extra mixture of yellow and golden-flowering kinds selected from all races, and is grown and treated the same as 2632 to secure uniform quality. We guarantee that every plant will produce flowers with yellow or gold in them—from solid yellow in different shades to spotted, marbled, blotched and banded flowers in fire and gold. Where the fashion requires yellow in pansies, this is the best for florists' use and far ahead of the yellow kinds offered for this purpose, it being varied in the shades of yellow and gold. Price of seed, prepaid, packet of 125 seeds, 8c. Trade packet, 2,000 seeds, 60c. Trade packet, 5,000 seeds, \$1.20. Ounce, \$3.00. Strong plants, 100, 50c.; 1,000, \$4.00; 5,000, \$17.50; 10,000, \$30.00.

2710. New York Improved Fancy Show Blend.—For variety of color, shades and markings, it has no equal, as it is made up after harvest, from 35 best and newest colors, besides over a dozen celebrated strains and mixtures selected from all classes and races, with the principal object of getting the best bloom of extra substance and perfect formed giants in the choicest dark colors and shades. Over 100 distinct colors and markings are produced from this blend, many of which are exhibition, and therefore it is the best *High Grade Florists' Mixture* ever offered. We have many customers who write that this blend produces better and more colors than the \$8.00 to \$12.00 mixture offered by seedsmen. We have again improved it by adding several new colors this year, but keep to the popular old price of 125 seeds, 10c. Trade packet, 2,000 seeds, 80c. Trade packet, 5,000 seeds, \$1.60. Ounce, \$4.00. Strong plants, 100, 55c.; 1,000, \$4.50; 5,000, \$20.00; 10,000, \$35.00.

HALF-TONE FROM PHOTO (REDUCED) OF
2710. New York Improved Fancy Show Blend.

2737. Prize Medal Award.—FOR ILLUSTRATION FROM PHOTO, REDUCED, SEE SIXTH PAGE.—We offer this mixture to fill a demand for strictly fancy exhibition prize stock, and recommend it to those who wish to exhibit at high class shows or those who take great pains in the growth and development of the pansy. It is made up from seed saved from numbered and named prize awarded plants of rare blotched kinds, penciled and marked in greatest perfection, so desirable, yet so difficult to develop. It does not contain any selves or as great a variety of colors as our Fancy Show Blend, No. 2710, and is not intended for ordinary bedding or florists' sale stock, except those who have a critical trade and can get the proper prices. With ordinary care and culture, or with the masses, it will be a disappointment, but under special care and cultivation, mammoth round flowers of surpassing substance and quality will be produced. Packet, 125 seeds, 30c. Trade packet, 2,000 seeds, \$2.40. Trade packet, 5,000 seeds, \$4.80. Ounce, \$12.00. Strong plants, 100, 95c.; 1,000, \$8.50.

Special Offer of Three Best Blends, Nos. 2632, 2709. 2710, as Described on this Page.

Headquarters for **EVERYTHING** IN PANSIES.

We have added several Novelties and New Varieties in Pansies this season to our already Complete Collection. We can truthfully continue to state that we have "EVERYTHING KNOWN IN PANSIES," as this list contains the cream of over twenty growers and specialists in Pansies abroad and at home.

PANSY PLANTS. In our Clovena Nurseries, "Home of the Pansy," we are growing Pansies in over 100 distinct colors and varieties. The half-tone cut herewith is from a photo of our small plant—half natural size. The wonderful root development, as shown, is caused by the special character and condition of the soil. We can grow extra fine Pansy Plants cheaper than any other grower owing to the natural advantage of soil and moisture. We have added another new departure to our business, that of growing and offering plants in separate colors and varieties. For kinds and prices of strong plants, as shown in cut, see 5th or last column in Pansy price list, pages 2 and 3. Plants grown in large numbers under contract at special prices, either from seed furnished or from our own.

Our plants are all uniformly stocky in character; the variation in prices is due to the quality of the strain or sorts, and to the cost of seed. The prices quoted in 5th or last column on pages 2 and 3 are by the hundred not prepaid. If to be sent pre-

paid by mail or express, add 10c. per 100. In lots of 500 or more, not prepaid, deduct 5c. per 100 from list price. In lots of 1,000 or more plants, deduct 10c. per 100 from list price. In lots of 5,000 or more, deduct 15c. per 100 from list price. In lots of 10,000 or more, deduct 20c. per 100 from list price. For example, a thousand plants of one or more kinds priced at 40c. per 100; at \$3.00 per 1,000,—5 000 of same grade at \$2.50 per 1,000, or 10,000 of same grade at \$2.00 per 1,000. Send for sample hundred and be convinced that our plants ought not to be compared with the ordinary run of plants. Transplanted strong and stocky plants, double the above prices. Large, strong blooming plants, prices according to season. Write for prices.

OTHER PLANTS. We can supply **Bellis Perennis** (Double Daisy) plants in separate or mixed colors at 50c. per 100 or \$4.00 per 1,000, not prepaid. We have a limited stock of the following plants to spare: **Asparagus Sprengeri** and **Plumosus Nanus**, **Primula** in separate and mixed colors, **Cineraria**, **Smilax**, **Latania Borbonica** and **Washingtonia Palms**. Prices on application. **Dwarf Pearl Tuberose Bulbs**, extra large bulbs for forcing, at \$1.00 per 100. No. 2 size. 40c per 100, not prepaid.

We furnish many thousand Florists with their entire supply of Pansy and other Seeds every year, with perfect satisfaction. To those who never planted our seeds, we suggest that they take advantage of the

SPECIAL FEATURE, "Order, Plant, then Pay,"

which we inaugurated in 1892, and FILL OUT THE ORDER BLANK sent herewith and get our

GRAND PANSY INTRODUCTION COLLECTION, No. 2736.

for 1900, improved, but still offered for the old price, \$1.75. It comprises one regular packet each of 125 seeds (in all 7,500 seeds) of the sixty kinds and strains enumerated in section 2, on pages 2 and 3. The actual value of this collection of sixty packets at our wholesale list price is \$3.04, and at the regular seedmen's prices would cost over \$6.00, and at other pansy specialist's 1,000 seed rates, for mixtures, would cost over \$4.00. Our net price is only \$1.75, prepaid, on the following liberal terms: If you will send us your name and address on the accompanying Special Order Blank, we will forward at our own expense, by return mail, or any date you name, this, the finest collection of Pansy seed ever offered, and you need not pay for it until received and planted—say one month. Many who grow their own seeds order this collection year after year, from which to grow the stock plants. Pansy plant growers plant largely of our strains, as the stock always sells. We invite comparative and competitive trials of our strains.
